DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claim 1 has been amended to overcome the Rejection under 112 first paragraph. Therefore the rejection under 112 first paragraphs has been withdrawn.

Response to Arguments

2. Applicant's arguments, filed 06/20/2006, with respect to claim 1 have been fully considered and are persuasive.
3. The claim rejection of 03.23/2006 has been withdrawn.

Allowable Subject Matter

4. The following is an examiner's statement of reasons for allowance:

The prior art of the record in particular combination of Hassard US patent 6,568,181 and in view of Miller US patent 5,071,548 does not teach or suggest a supporting structure for an apparatus for extracting power from a fluid flow, the apparatus comprising a fluid drivable engine, including inter alias, a transmission fluid, said transmission fluid being a gas and a portion of the fluid flow being at a lower pressure than the pressure of the transmission fluid by virtue of the fluid flow rate, thus causing the transmission fluid to be drawn through the conduit, said transmission fluid exiting the conduit via a plurality of entrainment outlets to become entrained in the fluid flow.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
